## ABOUT ME

Experienced Mobile & Web Developer with strong expertise in Flutter, Dart, JavaScript, Node.js, Python, PHP, HTML, and CSS. Proficient in building robust applications powered by Firebase backend services and cloud-based infrastructure. Successfully delivered multiple projects, including a cross-platform, AI-powered application featuring subscription-based monetization, real-time data processing, and enterprise-grade architecture. Passionate about designing scalable, high-performance solutions that provide seamless and engaging user experiences across all platforms.

## EXPERIENCE
